

MUHAMMAD IBRAHIM QASMI

oppoibrahim23@gmail.com | ibrahimqasmi.com | [LinkedIn](#) | [GitHub](#) | [Kaggle](#) | [Topmate](#)

SUMMARY

Wildly curious Data Scientist and researcher with deep expertise in Machine Learning, Deep Learning, LLMs, NLP, and Computer Vision. Currently pursuing BS in Information Technology while actively contributing to AI research in healthcare and sustainability. Passionate about open-source, community building, and mentoring 500+ students globally. Seeking opportunities to apply computational skills to impactful scientific challenges.

ACHIEVEMENTS

- 3× Kaggle Grandmaster** 2024
 - First Pakistani and youngest to achieve triple Grandmaster status (Notebooks, Discussions, Datasets)
 - 50+ kernels, 25+ datasets, 200K+ views, 10,000+ upvotes/forks across CV, NLP, Time Series projects
- Kaggle Competition Expert | View Competitions** 2025
 - CSIRO Image2Biomass: 33rd/3,800+ teams (Silver Medal) – DINOv2 & SigLIP ensemble for pasture prediction
 - PhysioNet ECG Digitization: 141st/1,400+ teams (Bronze Medal) – Time-series extraction from ECG images
 - Social Media Extremism Detection: 1st/200+ teams (\$100 prize) – BERTweet with 15-fold CV ensemble
 - Loan Payback Prediction: 20th/3,700+ teams – Consistently top 1% in Playground competitions
- Featured on Times Square NYC – Topmate Top 0.1% Mentor** 2025
 - Recognized globally for exceptional AI/ML mentorship; 500+ hours guiding aspiring data scientists
- International Hackathon Champion (7× Winner)** 2023 – 2025
 - Cursor × Replit: 1st/836 | AI Astronauts: 2nd/1,056 | WordSprint: 2nd | ULEFUSA GenAI: 1st
 - Women's Health: 2nd | GPT-5 Co-Creating: Most Liked (785 teams) | Aria & Allegro: Top 6/63 teams
- Competitive Programming** 2024 – 2025
 - Advent of Code 2024: 22nd globally, 2nd in Pakistan | Meta Hacker Cup: Round 2 (2024 & 2025)
 - MIT Winter Informatics: 65th/500+ teams | UC Berkeley CALICO: Bronze | Harvard CS50x: 9/9

EDUCATION

- Bahauddin Zakariya University** 2022 – 2026 (6th Semester)
Bachelor of Science in Information Technology (CGPA: 3.45) Multan, Pakistan
 - Courses: Data Structures, Database Systems, Web Technologies, Networking, IT Infrastructure

PUBLICATIONS

- AI for Industrial Carbon Footprint Reduction | 2nd Author** ICCAS Dubai, 2025
 - Accepted at International Conference on Climate Action & Sustainability; ML for emission forecasting
- Ongoing Research** In Progress
 - (1) Corn Yield Prediction using advanced ML on US county-level agricultural datasets
 - (2) Explainable AI Framework for Diabetic Retinopathy Detection using multi-method XAI techniques

EXPERIENCE

- Data Scientist** 2025 – Present
Blue Whale Studios USA (Remote)
 - Building data analytics solutions for fintech applications, processing large-scale financial datasets
 - Developing ML models for predictive analytics, A/B testing, and business intelligence dashboards
- AI Engineer** Oct 2024 – Mar 2025
Grinda.ai South Korea (Remote)
 - Developed end-to-end AI pipelines for conversational agents using LangChain and FastAPI
 - Implemented advanced RAG systems and LLM fine-tuning for on-premises deployment
- Health Data Analyst** 2023 – 2024
Eminent Enterprise Pakistan Pakistan
 - Analyzed healthcare datasets and built ML models improving patient outcome predictions

TECHNICAL SKILLS

Languages: Python (Advanced), C++ (Competitive Programming), SQL, JavaScript
ML/DL: TensorFlow, PyTorch, Scikit-learn, XGBoost, LightGBM, OpenCV, Hugging Face Transformers
LLMs & AI: LangChain, RAG Systems, Vector Databases (Pinecone, Chroma), Fine-tuning, Prompt Engineering
Web & Tools: FastAPI, Streamlit, Gradio, Git, Docker, Jupyter, Azure, Linux

COMMUNITY LEADERSHIP & VOLUNTEER

Gen AI Instructor, Mentor & Judge <i>Pakistan Engineering Council & NCEAC-HEC</i>	2024 – Present <i>Remote</i>
• PEC Cohort 3 (Aug-Sep 2025): Trained 2,000+ professionals on GenAI fundamentals • NCEAC-HEC (Oct-Nov 2025): Trained participants, mentored teams, judged 330+ submissions in 48-hour hackathon	
Hackathon Lead, Judge & Organizer <i>WebMind Innovation Hackathon</i>	Oct 2025 <i>Remote</i>
• Led organization of international hackathon with 256 participants across 4 tracks • Served as primary judge alongside industry experts from Google, Broadcom, and Stanford	
Technical Trainer & Moderator <i>iCodeGuru</i>	2024 – Present <i>Remote</i>
• Led Python, DSA, Data Science, and Gen AI workshops for 500+ students globally	
Guest Speaker <i>UET Lahore</i>	2025 <i>Remote</i>
• Delivered session on “Latest Trends in Technology 2025” covering GenAI and AI Agents	
Data Science Volunteer <i>DataKind</i>	Mar – Apr 2025 <i>Remote</i>
• Contributed to Financial Inclusion DataKit Event supporting economic opportunity analysis	

PROJECTS PORTFOLIO

Hackathon & AI Applications

- Legal Buddy (Presented at Stanford University Hackathon) – RAG-powered legal assistant with LangChain, GPT-4
- AI Marketing Studio (Google DeepMind Hackathon) – Multi-format asset generator with Gemini API

Deep Learning & Computer Vision

- Eye Disease (MobileNetV2), Potato Disease (EfficientNetB3), Polyp Segmentation (UNet/ResNet)
- Paddy Disease (Transformer), Face Mask Detection (CNN), Tomato Leaf Disease, MNIST

NLP & Text Analytics

- Sentiment Analysis (LSTM, 96%), Emotions Detection (BiGRU, 94%), Email Spam, Plagiarism Detector
- WhatsApp Chat NLP Analysis (20K messages), IMDb Reviews, DistilBERT Fine-tuning

Data Analysis

- Amazon Sales EDA (5,800+ upvotes), Netflix Content Intelligence, NVIDIA Stock Time Series
- ICC Women’s Cricket World Cup, SuperStore Sales Analysis, Venezuela Economic Evolution
